Preliminary Amendment

Based on PCT/FR03/03661, Filed: December 10, 2003

Filed: June 2, 2005

AMENDMENTS TO THE CLAIMS

This listing of claims will replace all prior versions and listings of claims in the

application:

LISTING OF CLAIMS:

Claim 1 (currently amended): An oven (1) for heating blanks on the run,

especially preforms or intermediate containers, made of a thermoplastic, this oven comprising

conveying means (2), suitable for supporting and moving the blanks one after another while

making each of them rotate about its own axis, and heating means (3) placed laterally to the

conveying means (2) so as to heat the bodies of said moving blanks, characterized in that

wherein the conveying means (2) are arranged so as to have at least two conveying branches (4,

5) lying approximately parallel to each other, and near each other, and having opposite

conveying directions, the blanks traveling along said two branches one after each other, and the

heating means (3) being placed between said two parallel conveying branches (4, 5) and

arranged so as to heat, bilaterally and simultaneously, the blanks running in opposite directions

along the two conveying branches respectively.

Claim 2 (currently amended):

The oven as claimed in claim 1, characterized in

that wherein the two conveying branches (4, 5) are joined, at one of their ends, by a loop

conveying section (8) that is located outside the zone where the heating means act.

3

Preliminary Amendment

Based on PCT/FR03/03661, Filed: December 10, 2003

Filed: June 2, 2005

Claim 3 (currently amended): The oven as claimed in claim 1-or 2, eharacterized in that wherein it includes two pairs of parallel conveying branches (4A, 5A; 4B, 5b) with heating means (3A; 3B) placed between the two branches of each pair respectively, the four conveying branches being connected together via loop conveying sections (8A; 8B) located outside the zones where the heating means act.

Claim 4 (currently amended): The oven as claimed in claim 3, characterized in that wherein the four conveying branches (4A, 5A; 4B, 5B) are mutually parallel.

Claim 5 (currently amended): The oven as claimed in any one of claims claim_1-to 4, characterized in that the conveying branches (4, 5)-are approximately rectilinear.

Claim 6 (currently amended): The oven as claimed in any one of claims claim 1-to 5, characterized in that wherein reflectors (9) are placed alongside each conveying branch on the opposite side from that occupied by the heating means (3).

Claim 7 (currently amended): The oven as claimed in any one of claims claim 1-to 6, characterized in that wherein the heating means (3) comprise infrared lamps.
